EX2SCORP-S

Single Member LLC

Texas LLC with an S-Corp election. The Texas franchise tax does not kick in until he has trading gains of \$300k or more. The new tax rate is now 1%. Learn more here <http://www.window.state.tx.us/taxinfo/franchise/>

2009 trader tax status: Number of traders per day 2-3. Average holding period will be less than 10 minutes, so mostly daytrades; rarely overnight. Pattern day trader. Hours per day 10-12, including full market hours. Trading equities, options, and futures. Mostly stock options. 100k account size. Intention is to run a trading business. Has a home office, has tools and has not decided on platform; will be a direct access platform. Trader Status for 2009 return.

One IB trading account in LLC name, with over 1,400 rt trades and \$3.8 million in proceeds from May to December.

Internally elected MTM on 05/16/2009. No 3115 or 481 since first time filer.

Taxpayer wanted to maximize the 401K contribution for 2009, so a salary of \$130,000 was required for this. Also by using a W-2 in the S-Corp, the taxpayer is able to pay in withholdings to avoid estimated tax penalties on the trading gains.

For a taxpayer, under the age of 50, who is a successful trader and wants to max out his/her 401(k) plan for 2009 for his/her 100% S or C corporation or an LLC taxed as a corporation, then a W-2 salary of \$130,000 needs to be paid to him/her from the entity. With \$16,500 of salary deferrals, Taxable W-2 earnings (box 1 of W-2) would be reduced from \$130,000 to \$113,500 assuming the employee salary deferral is to a traditional 401(k)) + \$32,500 profit sharing contribution (25% X \$130,000) = \$49,000 Total 401k contribution.

Formula to determine compensation needed to max out 401(k) for 2009 is ([max overall contribution allowed for year to 401(k) less the salary deferral contribution] / 25%)

Example: $([49,000 - \$16,500]) / 25\% = \$130,000$ of compensation needed to max out 401(k) for 2009.

Note to Form 1120S, Form 4797, Part II and Form 6781 in connection with the corporate trading business activity: "trader in securities and commodities"

Taxpayer operated a trading business, in accordance with the definition below, from May through December of 2009. Considerable time spent every trading day, consistent and frequent number of trades, and trading proceeds all support taxpayer's rising to the level of conducting this activity as a business.

IRS Publication 550 - Chapter 4, "Special Rules for Traders," applies to individuals and trading companies. We excerpt these rules below (and add some notes in parentheses).

Special Rules for Traders in Securities.

Special rules apply if you are a trader in securities in the business of buying and selling securities for your own account. To be engaged in business as a trader in securities, you must meet all the following conditions. (Taxpayer met all the following conditions for tax year 2009).

..You must seek to profit from daily market movements in the prices of securities and not from dividends, interest, or capital appreciation.

..Your activity must be substantial.

..You must carry on the activity with continuity and regularity.

The following facts and circumstances should be considered in determining if your activity is a securities trading business.

..Typical holding periods for securities bought and sold. (Taxpayer had very short holding periods).

..The frequency and dollar amount of your trades during the year. (Taxpayer traded frequently with lower dollar amounts - high turnover).

..The extent to which you pursue the activity to produce income for a livelihood. (Taxpayer's intention is to earn a living from this trading business activity).

..The amount of time you devote to the activity. (Taxpayer spends a good part of every day on this activity).

Note.

You may be a trader in some securities and have other securities you hold for investment. The special rules discussed here do not apply to the securities held for investment. You must keep detailed records to distinguish the securities. The securities held for investment must be identified as such in your records on the day you got them (for example, by holding them in a separate brokerage account). (If taxpayer has investment securities they are clearly "segregated" from its trading securities in accordance with current IRS regulations).

How To Report.

Transactions from trading activities result in capital gains and losses and must be reported on Schedule D (Form 1120S). Losses from these transactions are subject to the limit on capital losses explained earlier in this chapter.

Mark-to-market election made. (This new taxpayer internally elected mark-to-market accounting for securities only for 2009).

If you made the mark-to-market election, you should report all gains and losses from trading as ordinary gains and losses in Part II of Form 4797, instead of as capital gains and losses on Schedule D. In that case, securities held at the end of the year

in your business as a trader are marked to market by treating them as if they were sold (and reacquired) for fair market value on the last business day of the year. But do not mark to market any securities you held for investment. Report sales from those securities on Schedule D, not Form 4797.

Expenses.

Interest expense and other investment expenses that an investor would deduct on Schedule A (Form 1040) are deducted by a trader on Form 1120S, U.S. Return for an S Corporation, if the expenses are from the trading business. Commissions and other costs of acquiring or disposing of securities are not deductible but must be used to figure gain or loss. The limit on investment interest expense, which applies to investors, does not apply to interest paid or incurred in a trading business. (Taxpayer duly reported trading business expenses on Form 1120S as trader in securities & commodities business corporation).

How To Make the Mark-to-Market Election for New Taxpayers.

If you are not required to file a 2008 income tax return, you make the election by placing the above statement in your books and records no later no later than 2 months and 15 days after the first day of the election year. Attach a copy of the statement to your 2009 return.

Revenue Procedure 99-17, 1999-1 C.B. 503, 2/09/1999, IRC Sec 475(f) Mark-to-market election rules for dealers in securities-election for traders and dealers.

Section 5.03(2)

New taxpayers.

A new taxpayer is a taxpayer for which no federal income tax return was required to be filed for the taxable year immediately preceding the election year. A new taxpayer makes the election by placing in its books and records no later than 2 months and 15 days after the first day of the election year a statement that satisfies the requirements in section 5.04 of this revenue procedure. To notify the Service that the election was made, the new taxpayer must attach a copy of the statement to its original federal income tax return for the election year. (This is the first tax year for the trading S-corp. The S-corp elected mark-to-market accounting under section 475(f) for tax year 2009 internally within 2 months and 15 days of forming the entity. A copy of that election is included at the bottom of this footnote, which is being attached to the initial Form 1120S company's return).

Once you make the election, it will apply to 2008 and all later tax years, unless you get permission from IRS to revoke it. The effect of making the election is described under mark-to-market election made, earlier.

For more information on this election, see Revenue Procedure 99-17, 1999-1 C.B. and sections 475(f).

TAXPAYER ALSO QUALIFIES AS A "TRADER IN COMMODITIES"

IRC Code Section: § 475 "Mark to market accounting method for dealers in securities", has Section 475(f) - "Election of mark to market for traders in securities or commodities": 475(f)(1) is for "trades in securities"; and Section 475(f)(2) is for "traders in commodities."

IRS Revenue Procedure 99-17 - "Mark to market accounting method for dealers in securities - election for traders and dealers", applies to both traders in securities and/or commodities. Rev.Proc. 99-17 reads as follows: "Headnote - IRS has provided exclusive procedure for dealers in commodities and traders in commodities and securities to elect to use mark-to-market accounting method."
