## EX7F-CA

During 2009, Joe had total trading proceeds over \$20 million and total roundtrip trades of over 1,000 per review of the GTT TradeLog reports. Trading was Joe's only occupation in 2009 and source of livelihood. Joe qualifies as a "trader in commodities" (i.e., he has trader tax status), so he reports all his trading business expenses on Schedule C (Business Profit and Loss). Notice that there is no limitation on these ordinary trading expenses. In order to deduct home-office expenses and Section 179 depreciation expenses, Joe transferred trading gains from Form 4797 to Schedule C to have them result in zero net income or loss. This is because home-office and Section 179 depreciations are only deductible to the extent you have business income. This transfer is discussed in the tax return footnote. Without a transfer, Joe would carry over these expenses to the following tax year, or choose normal depreciation. Trader tax status alone (without MTM) saves Joe a significant amount of taxes, because of the Schedule C deductions.

Commodity trading gains and losses are reported on Form 6781. Since Joe elected mark-to-market accounting (MTM) on his commodities trading, he reports his commodities trading gains first on Form 6781 and then transfers the net Form 6781 amount to Form 4797 Part II - Ordinary gain or loss.

Joe has commodity trading gains, so he pays a higher tax for electing MTM.

A Form 3115 is also required to be filed for commodities traders who elected IRC 475(f)(2) mark-to-market accounting for 2009. Unlike the Form 3115 for securities traders, the Form 3115 for commodities traders does not need a Section 481 adjustment (i.e. the Form 3115 will report a "zero" Section 481 adjustment). Commodities are already marked-to-market in accordance with Section 1256 contract law. Therefore, there is no amount generated from this change of accounting method, which is what a Section 481 adjustment is for. Applicants filing under any automatic change procedures (the case for Traders electing IRC 475(f)) generally must complete and file an application in duplicate. The original must be attached to the taxpayer's timely filed (including extensions) original Federal income tax return for the year of the change. A copy of the application must be filed with the IRS National Office no earlier than the first day of the year of change and no later than when the original is filed with the Federal income tax return for the year of change.

Note to Schedules C, Form 6781, Form 4797-Part II and Form 3115 in connection with taxpayer's business activity: "trader in commodities"

TAXPAYER QUALIFIES AS A "TRADER IN COMMODITIES"

IRC Code Section: § 475 "Mark to market accounting method for dealers in securities", has Section 475(f) - "Election of mark to market for traders in securities or commodities": 475(f)(1) is for "traders in securities"; and Section 475(f)(2) is for "traders in commodities."

IRS Revenue Procedure 99-17 - "Mark to market accounting method for dealers in securities - election for traders and dealers", applies to both traders in securities and/or commodities. Rev. Proc. 99-17 reads as follows: "Head note - IRS has provided exclusive procedure for dealers in commodities and traders in commodities and securities to elect to use mark-to-market accounting method."

Copy of taxpayer's election for mark-to-market accounting for commodities only. This election was attached to taxpayer's 2008 tax return or extension filed by April 15, 2009.

"Pursuant to IRC 475(f)(2), the Taxpayer hereby elects to adopt the mark-to-market method of accounting for the tax year ended December 31, 2009 and subsequent tax years. The election applies to the following trade or business: Trader in Commodities as a sole proprietor."

#### SUMMARY

Taxpayer qualifies as a "trader in commodities" for 2009 and he duly elected mark-to-market accounting for commodities, on time for tax year 2009 (see copy of election above). Taxpayer's trading business expenses are reported on Schedule C and his commodities trading gains and losses are reported on Form 6781. The net amount of Form 6781 is then transferred to Form 4797 Ordinary Gain or Loss because taxpayer is using mark-to-market accounting.

Taxpayer's trading gains are exempt from self-employment taxation.

Taxpayer is exempt from self-employment taxation because taxpayer is a trader in commodities and not a "commodity dealer", as defined in IRC Section 1402 Definitions - Net earnings from self-employment.

Trader in Commodities is a business the same as Trader in Securities.

Taxpayer operated a trading business, in accordance with the definition below, for the entire year 2009. Considerable time spent every trading day, consistent and frequent number of trades, and trading proceeds all support taxpayer's rising to the level of conducting this activity as a business. Trader expenses reported on Schedule C have been prorated accordingly for the period of time the taxpayer was actively conducting his commodity trading business.

We excerpt IRS Publication 550, Chapter 4 - Special Rules for Traders Securities. (See our added notes in parenthesis).

Special rules apply if you are a trader in securities in the business of buying and selling securities for your own account. To be engaged in business as a trader in securities, you must meet all the following conditions. (Taxpayer met all the following conditions for tax year 2009).

..You must seek to profit from daily market movements in the prices of securities and not from dividends, interest, or capital appreciation.

..Your activity must be substantial.

..You must carry on the activity with continuity and regularity.

The following facts and circumstances should be considered in determining if your activity is a securities trading business.

..Typical holding periods for securities bought and sold. (Taxpayer had very short holding periods).

..The frequency and dollar amount of your trades during the year. (Taxpayer traded frequently with lower dollar amounts - high turnover).

..The extent to which you pursue the activity to produce income for a livelihood. (Taxpayer's intention is to earn a living from this trading business activity).

..The amount of time you devote to the activity. (Taxpayer spends a good part of every day on this activity).

Note.

-----  
You may be a trader in some securities and have other securities you hold for investment. The special rules discussed here do not apply to the securities held for investment. You must keep detailed records to distinguish the securities. The securities held for investment must be identified as such in your records on the day you got them (for example, by holding them in a separate brokerage account). (If taxpayer has investment securities they are clearly "segregated" from his trading securities in accordance with current IRS regulations).

How To Report.

-----  
Transactions from trading activities result in capital gains and losses and must be reported on Schedule D (Form 1040). Losses from these transactions are subject to the limit on capital losses explained earlier in this chapter.

Mark-to-market election made.

-----  
If you made the mark-to-market election, you should report all gains and losses from trading as ordinary gains and losses in Part II of Form 4797, instead of as capital gains and losses on Schedule D. In that case, securities held at the end of the year in your business as a trader are marked to market by treating them as if they were sold (and reacquired) for fair market value on the last business day of the year. But do not mark to market any securities you held for investment. Report sales from those securities on Schedule D, not Form 4797. (Taxpayer is using mark-to-market accounting, see above).

Expenses.

-----  
Interest expense and other investment expenses that an investor would deduct on Schedule A (Form 1040) are deducted by a trader on Schedule C (Form 1040), Profit or Loss From Business, if the expenses are from the trading business. Commissions and other costs of acquiring or disposing of securities are not deductible but must be used to figure gain or loss. The limit on investment interest expense, which applies to investors, does not apply to interest paid or incurred in a trading business. (Taxpayer duly reported his trading business expenses on Schedule C: trader in

commodities)

Self-employment tax.  
-----

Gains and losses from selling securities as part of a trading business are not subject to self-employment tax. This is true whether the election is made or not.

How To Make the Mark-to-Market Election.  
-----

To make the mark-to-market election for 2009, you must file a statement by April 15, 2009. This statement should be attached to either your 2008 individual income tax return or a request for an extension of time to file that return. The statement must include the following information. (Taxpayer elected mark-to-market accounting for commodities only for tax year 2009; by attaching the election to his 2008 tax return or extension filed by April 15, 2009. See above for copy of the election.)

That you are making an election under section 475(f) of the Internal Revenue Code. The first tax year for which the election is effective. The trade or business for which you are making the election. If you are not required to file a 2008 income tax return, you make the election by placing the above statement in your books and records no later than March 15, 2009. Attach a copy of the statement to your 2009 return.

After making the election to change to the mark-to-market method of accounting, you must change your method of accounting for securities under Revenue Procedure 2009-39. Revenue Procedure 2009-39 requires you to file Form 3115, Application for Change in Accounting Method. Follow its instructions. Label the Form 3115 as filed under "Section 10A of the APPENDIX of Rev. Proc. 2009-39." (Taxpayer is filing his Form 3115 together with his Section 481 adjustment (if any applies) with this tax return. Taxpayer is filing a duplicate copy with the IRS national office as is also required).

Once you make the election, it will apply to 2009 and all later tax years, unless you get permission from IRS to revoke it. The effect of making the election is described under Mark-to-market election made, earlier.

For more information on this election, see Revenue Procedure 99-17, 1999-1 CB 503.

=====  
Section 481(a) Adjustment tax law for traders

According to Rev. Proc. 99-17, 1999-7 IRB 1, IRC Sec(s). - Mark to market accounting method for dealers in securities - election for traders and dealers. Section 6. Change in Method of Accounting; Clause.03 Section 481(a) Adjustment

"If a taxpayer changes its method of accounting under section 6.01 of this revenue procedure, the taxpayer must take into account the net amount of the section 481(a) adjustment in the manner provided in section 5.04 of Rev. Proc. 98- 60. Thus, the section 481(a) adjustment generally is taken into account ratably over four taxable years beginning with the year of change. For purposes of section 481, a change in method of accounting made under this revenue procedure is a change in method of accounting initiated by the taxpayer."

According to the rules for Form 3115, if the change results in a positive section 481 adjustment, the Taxpayer must, beginning with the year of change, take the section 481 adjustment into account ratably over 4 taxable years in computing taxable income. However, the Taxpayer may elect to take the entire positive section 481 adjustment in the year of change, providing the Section 481 adjustment is under \$25,000. Otherwise, Taxpayer is required to pro-rate this Section 481 adjustment over 4 taxable years.

If the change results in a negative section 481 adjustment, the taxpayer must take the entire section 481(a) adjustment into account in the year of change.

=====  
Section 481(a) Adjustment - Calculation.  
-----

On January 1, 2009, Taxpayer started the year with "Trading Positions" (or "Investment Positions which he converted to "Trading Positions").

Market value on January 1, 2009 of \$ None

Original Cost basis of \$ None

Section 481 Adjustment is the difference \$ None

Taxpayer did not have any open trading positions on January 1, 2009. There is no Section 481 adjustment to report for tax year 2009.

=====  
SPECIAL NOTES  
-----

If Taxpayer has net trading gains, sufficient trading gains are transferred from Form 4797 to Schedule C to cover Taxpayer's related trading business expenses. This is done since Schedule C business expenses relate to taxpayer's trading gains. There is no change to the tax liability as a result of this transfer.

### Future Tax Savings

- ☐ If the medical insurance premiums currently being paid by the taxpayer are for a high deductible health plan, consideration should be given to opening a Health Savings Account (HSA) under IRC Section 223. Qualified HSA contributions provide for an above-the-line deduction. In 2010, the policy must have an annual deductible of at least \$1,200 (\$2,400 for family coverage) and maximum out-of-pocket expenses not exceeding \$5,950 (\$11,900 for family coverage). If the taxpayer participates for the entire year, contributions up to the amount of the annual deductible, but not exceeding \$3,050 (\$6,150 for family coverage) could be deducted on the tax return. In 2010, catch-up contributions of \$1,000 can be made by taxpayers between age 55 and 65. Distributions and earnings from HSA's are not taxed provided they are used to pay qualified medical expenses.

### Tax Tips

- ☐ Taxable income excluding capital gains and qualified dividends is \$182,378, placing the taxpayer in a 33% marginal tax bracket on ordinary income. Based on 2009 tax rates, ordinary income would have to increase by over \$190,572 in order for any ordinary income to begin being taxed in the 35% bracket. This may be used as a guide in determining the advantages or disadvantages of receiving discretionary ordinary income in 2010.
- ☐ The taxpayer's taxable interest exceeds tax-exempt interest. The taxpayer may benefit by converting taxable securities to tax-exempt securities. Although tax-exempt securities normally produce a lower yield, the tax savings for taxpayer's in a higher bracket may offset the higher income yielded from taxable securities.
- ☐ A careful approach to prepaying discretionary itemized deductions before the end of the year, or postponing discretionary itemized deductions until after the year end, could prove to be beneficial to this taxpayer, since itemized deductions are very close in value to the standard deduction.
- ☐ The costs associated with maintaining a home office can be deducted only if strict IRS guidelines are met. Ensure that the home office is used exclusively for business, that the taxpayer uses the office to conduct administrative or management activities of a trade or business, and that there is no other fixed location of the trade or business where the taxpayer conducts substantial administrative or management activities for the business. Refer to IRS Publication 587 for additional rules related to the home office deduction.
- ☐ For home sales operations, ensure that storage space is included in the calculation of business square footage. Additional storage space can be underutilized spaces such as attics and basements. The storage space must be used on a regular basis and be an identifiable separate space suitable for storage.

**Tax Tips (continued)**

- ☐ Although the taxpayer is not subject to AMT, tentative minimum tax is currently 97% of regular tax. Consider reviewing next year's income and deduction items to see first if the taxpayer will be subject to AMT, and if AMT applies, review preference and adjustment items to see if any can be postponed or eliminated.

**Compliance Tips**

- ☐ Schedule C for Joe Trader MTM Comm Gains Ex 7 (1) : Ensure that all required information returns such as Form 1099, 1098, 5498, and W-2G have been filed. Penalties for not filing required information returns can be fairly high.
- ☐ Schedule C for Joe Trader MTM Comm Gains Ex 7 (1) : Travel, meals, and entertainment expenses draw close attention from the IRS under examination. Entertainment expenses must be ordinary and necessary, and common practice for the type of industry. In addition to the general record keeping requirements, the following information may be required: dates and duration of business discussions that took place, nature of the business conducted, the business benefit derived or expected to be derived, identification of the person(s) entertained, and whether the site of the meeting was vacation oriented. Ensure that adequate records exist to support the travel, meals, and entertainment expense.
